

Fine French Underwear

The woman who insists on the best
in the price in hand-made French
underwear, we invite to a spacious
showroom in Los Angeles. The following
extra good values we suggest, showing
you will be more than pleased
with the purchase of any of these
soft garments.

French Chemise

\$1—\$1.50—\$2

especially well made dainty chemises.
Hand-embroidered floral designs
on front yoke; ribbon drawn
waists and hand-embroidered edges.

French Gowns

\$2.50—\$2—\$5

variety of styles, eyelet looking over,
high-neck styles, of
finished imported cottons, pret-
tiful designs. The designs
that impress and will
give you such satisfactory service.

French Drawers \$1.50

extraordinary values. Hand-
embroidered dainty styles, with
embroidered edge to match.

French Combinations

At \$2 and \$3.50

course, you're interested in
every garment. They
are the best fitting, finest, and
handsomest, too, in several styles.

ON TOUR.
REEN AND TARTAN.ngelenos Given a Merry Greeting.
ember of Commerce Train at Last in Running Order in Arizona.

tire Population of Town of Globe Receives Visitors With Joy.

riendship for City of Angels Manifested by Hearty Speeches.

BY JOHN S. M'GROARTY.
DIRECT WIRE TO THE TIMES.

LOBE (Arls.) March 17.—(Exclusive Dispatch) District Passenger Agent Martin of the Southern Pacific has finally got the Los Angeles Chamber of Commerce special running right, and has issued orders that there shall be no more wrecks of any kind in the next to make the arrangements for the special left at 11:30 a.m. and arrived out by Frank Wiggin, looking 20 cents.

As a consequence the special left Tucson last night promptly at 11 o'clock under the low-hanging desert stars, with everybody on board happy and joyful with the hospitality of the Pueblo Club in the oldest city and one of the best—on the American continent.

All night long the special climbed the Pinal Mountains up to the top of the world, and the great hills of Gila where copper grows in the ground like opium in the green uplands of Altamont.

The caravan breakfasted early in the morning, camped at the first town, every man's palate with the best of the land, and at about 9 o'clock last time, a roar of welcome from the throats of all the whistles in Gila brought the visitors to their feet with answering cheers. It was St. Patrick's Day in the morning's "Globe" of all the world, and the great copper camp was at play, decked in green for the main day. Line after ten thousand end to end with men, women and children whose shouts of welcome rang to the blue skies.

BYRNE IS RESPLENDENT.

The Globe City Band struck up "The Wearin' of the Green," and the various societies, including the Ancient Order of Hibernians, the Clan MacPherson, the Fire Department and the civilian members of the special ranks to let the Los Angeles division pass on to the right of the line in the position of honor.

Chief Marshal John J. Byrne of the Santa Fe route took his place in the saddle on a gray charger, which had been ridden in the battle of San Juan Hill by an Arizona Rough Rider. Marshal Byrne was splendidly arrayed in the uniform of his corps, wearing a rosette of green ribbon of vast proportions over his heart as a gift from the ladies of Gila county, in recognition of his undisputed place as the handsomest man in the party. Dr. Walter Lindsey, chief aid, wearing the tunic of the MacPhersons, came next, closely followed by L. Goldwater, Frank Knapp, Edward Kurth, and other prominent Los Angeles. Hills and members of the committee were invited to the end of Broad street, and then counter-marched back to the Chamber of Commerce building, where a public reception was held.

The address of welcome to the visitors was delivered by Attorney George Stoneman, a son of Gen. George Stoneman, sometime Governor of California. The speech was strikingly in good taste and fairly rang with the soul of hospitality.

"Los Angeles was the friend of Globe," said the orator, "when Globe needed friends, and we do not forget. We are neither unkindly of ungrateful for many favors received in days when favors counted."

GREATNESS OF GLOBE.

He said that Globe is the center of the copper kingdom, and the second in the world, and he proved it by figures that fairly staggered his hearers. It is a district thirty-five miles long and fifteen miles wide, now producing 40,000,000 pounds of copper a year with over 200,000,000 tons blocked out in the Old Dominion, Miami, Live Oak, Inspiration and other mines. Compared with this the renowned copper mines of Butte, Mont., appear small and insignificant.

Dr. Walter Lindsey, as a director of the Los Angeles Chamber of Commerce, responded to the address of welcome on behalf of Los Angeles. He referred feelingly to the ties that bind the metropolis of the Southwest to all the Southwest, and paid a high tribute to the people of Globe and their achievements, Globe has 15,000 inhabitants, and most of them were on hand at the reception.

When Dr. Lindsey concluded his address, the cheers were very boisterous.

After the ceremonies were concluded the visitors boarded a special train and spent two hours at the great mining camp of Miami, six miles distant from Globe, where a \$40,000,000 concentrating and reduction works is in the course of construction.

The ladies of Globe took the ladies of the Los Angeles party in hand, entertaining them lavishly at the Dominion Hotel.

A lunch was served to the men in the rooms of the Saguro Club, where the merchants of Los Angeles mingled with the merchants of Globe, incidentally placing some large orders. To-night the special is threading the Gila Hills down to Safford, Wilcox, Douglas, and Tucson, and the return stops will be made tomorrow, including a two hours' return visit to Tucson.

TO PROBE HOSPITAL SCANDAL.

WASHINGTON, March 17.—Stirred by the charge that Dr. H. H. H. H. patient, who died in the Government Marine Hospital at San Francisco, had been struck in the face by Surgeon General, the government will conduct a thorough investigation into the management of the institution. This will be conducted by Surgeon P. M. Carrington, now at San Diego, Cal., who today was ordered to San

CONGRESS RULES FIGHT.

(Continued From First Page.)

the discussion. After listening for several hours to flings, he appeared on the floor and in a speech of his own, Mr. Cooper of Wisconsin defended his action in having demoted in committee seniority and from chairmanship of sub-committee of New Jersey's Coopers of Washington, Murdoch of Kansas, and others. He placed the responsibility for their punishment upon their reelectability in passing the bill, meaning the position, the attitude of the New Jersey member on the emergency currency.

Representative Underwood of Alabama, who with Representative Charles Clark, had been in charge of the fight conducted by the Democratic forces throughout the day, said at 10:30 o'clock:

"It is apparent we can do nothing until the Speaker rules on the point of order which is pending. The House cannot compel him to rule. We are keeping our fingers crossed and the victory tonight will rest with the side best able to hold its mettle for a vote. In any event, it is evident that a majority of the members are in favor of the rules and we can bring it up again tomorrow or any other day."

IN HANDS OF SPEAKER.

"This fight against time is in the hands of the Speaker, and he alone can stop it. It is certainly a most remarkable situation where a majority of the members are in favor of the rules, and maintain filibuster like this."

Representative Dwight, the Republican whip, at the same time announced that seventeen Republican members, who were unrepresented by Democrats, were on the way to Washington.

"They are coming from New York, and the last to make the arrangements for the special left at 11 o'clock. We said, 'Some will arrive before midnight, others not until tomorrow. With these additional votes we hope to stem the tide.'

TEXT OF RESOLUTION.

Following is the text of the Norris resolution:

"Resolved, that the rules of the House be amended as follows:

"The Committee on Rules shall consist of fifteen members, nine of whom shall be members of the majority party, and six of whom shall be members of the minority party, to be selected as follows:

"The States of the Union shall be divided by a committee of three selected by the House for that purpose, into three groups, each group to contain as near as may be, an equal number of members belonging to the majority party. The States of the Union shall be divided into three groups, each group containing as near as may be, an equal number of members belonging to the minority party.

"At 12:30 o'clock on the day following the adoption of the resolution, each committee, each of said groups shall meet and select one of its number, a member of the Committee on Rules. The plan of meeting for each of said groups shall be determined by the committee of three in its report. Each of said groups shall report to the House the name of the member selected by the committee on Rules.

SPEAKER NOT ELIGIBLE.

"The Committee on Rules shall select its own chairman. The Speaker shall not be eligible to membership on said committee. All rules or parts thereof inconsistent with the foregoing resolution are hereby repealed."

"Encouraged by the reflected success of the insurgents in the House, the insurgents today started an aggressive movement for a change in the rules for the purpose of slimming down Speaker Cannon from the Committee on Rules and curtailing his power.

Without a note of warning that so far as he was concerned he brought up with the apparent support of the majority of the membership of the House, Representative Norris of Nebraska, late in the afternoon, obtained the floor and introduced a resolution to change the rules for a vote of censure.

"Upon every question when a crisis arises," said Mr. Poincexter, what is the practice in this House so far as the parliamentary procedure is concerned? A special order is brought out to change the rules which have been exalted by him.

INSURGENT CONFESSIONS.

Interrupting at last, Mr. Cannon asked if Mr. Gardner of Massachusetts was in the House, and the Massachusetts member appearing, the Speaker asked him to tell the House what he had to do to be chairman of the Committee on Industrial Arts and Expositions.

Mr. Gardner said he had gone off that committee voluntarily to avoid embarrassment in his course as an insurgent.

Mr. Cannon then explained why he had removed several members from his committee places. Fowler, of New Jersey, had been chairman of the Banking and Commerce Committee, and he had refused to report his emergency currency bill after the Republican caucus twice had declared in favor of his legislation.

The conductor, not wanting to stop his car, looked for an officer. As the car neared Walnut street, Ryan summoned a policeman.

In the meantime, Ziegengheim is seen to have fallen from his seat into the aisle. He evidently fell on his left side, a bruise to his left eye indicating the violence of the fall, as well as some dust on the left side of his clothing.

The accident makes three deaths of bank presidents here within the past three weeks—Rufus J. Lackland of the Boatman's, John Wahl of the German Savings Institution, and Ziegengheim.

REFUSE TO UNITE THEM.

TONOPAH (Nev.) March 17.—Shunned by all those from whom they sought assistance in their effort to be married in Nevada, George Nasaki, the Japanese gardener, and Juliette Schwann, his American inamorata, today announced their intention of leaving this city in the morning for their home in Los Angeles. Although the marriage was issued by the County Clerk yesterday afternoon, no minister, priest or judge in this vicinity, would perform the wedding ceremony.

LAUGHS AT DEMOCRATS.

Speaker Cannon, who had controlled the chair of the House, had a good laugh.

"The Speaker above the din,"

"Dame! Rule! Rule!" insisted the Democrats.

The Speaker's frown left his face, giving way to a genial smile. Mr. Cannon kissed the tips of his fingers to

SITUATION IS TENSE.

On both the Republican and Democratic sides nearly every member was in his place, and all realized that at last the insurgents, were looking for the regular Republicans for what might be done. The "whips" on both sides the "whips" realizing the necessity of a full voting strength, put in motion all their resources for the securing of absent members.

Telegrams were sent to those who were absent from the city on leave, and taxicabs were ordered to make quick trips to the hotels and homes of the few members who were in Washington who were not on-hand.

The news of the impending struggle soon spread about the city and the galleries were abuzz.

Mr. Norris, whose seat in the Democratic side of the chamber, appealed to the Speaker for a ruling in favor of the immediate consideration of the resolution, and the Speaker had come for action by the House.

"It might take into its own hands matters affecting legislation.

The attitude of the Democratic toward the movement evidently put under way was evident from the prompt endorsement of Mr. Norris's contentions by Underwood and Minority Leader.

Mr. Underwood insisted the language of the Constitution made the Nebras-

S. DANIEL STILL IN COMA.

Doctors Bulletin Dying Senator's Condition, But Have no Hope.

(Associated Press Night Report.)

DALLAS (Tex.) March 17.—The following statement, signed by Drs. C. C. Bohannon, E. A. Waugh and W. C. Chowing, was issued at 9 o'clock tonight:

"Senator Daniel's condition shows a slight improvement.

The state of comas has lessened a little since morning. The patient took a little nourishment this afternoon.

"He has not recognized anyone, and the left side of his body continues completely paralyzed. We are much pleased at being able to announce a slight improvement, but we fear it will prove to be but temporary and that the worst may come soon."

Mr. Fassett read a letter written by Mr. Roosevelt to Mr. Watson, of Indiana, in 1905, in which Mr. Roosevelt advised him to make representations to the House under the administration of Mr. Cannon. This evoked protracted applause among the regular Republicans.

Mr. Illinois of Michigan characterized the Speaker as the wisest man in public or private life.

Mr. Madison of Kansas said that

favorable action on the resolution

would result in a Republican victory at the polls, because the country would

be represented by a representative government had been restored to the House.

Mr. Tawney then moved that the

SHOOTS WHEN DENIED KISS.

Not Allowed to Kiss Babe, Man Fatally Wounds Girl Wife.

(Associated Press Night Report.)

CINCINNATI, March 17.—

"When they would not let me kiss my baby that settled it. Then I fired."

This Albert Scherer explained was why he shot his seventeen-year-old wife today as she lay in bed at the home of her mother, Mrs. Charles Wurster. The victim will probably die, as one bullet entered her head just back of the left ear. The other bullet entered her left arm.

SPEAKER LEAVES CHAIR.

Representative James Keifer of Kentucky, made a point of order against Mr. Mahly, Republican, who had joined the Democrats to give the House control of the House. The rules under which business should be conducted, in spite of the fact that the country would hold the Republicans responsible for legislation enacted. When Mr. Mahly was concluded, Mr. Roberts of Massachusetts made the point "no quorum," on which an aye and nay vote was demanded, and twenty-five divisions were consumed in discussing whether there should be a call of the House. The whips on both sides began rounding up their forces and pointing them into the chamber to answer to their names. The "regulars" were again defeated, the vote being 108 ayes, 116 noes.

Mr. Clark accused the Speaker of being responsible for the long filibuster.

CLARK PLEADS FOR CHARGE.

"It is the best illustration of the charge which the Speaker denied of being a 'car,' said Mr. Clark. "He knew how he intended to rule on this point of order the minute it was raised."

He moved the Speaker to rule, but Mr. Cannon intruded the chair to Representative Oldmire of Pennsylvania and left the chamber.

The Speaker, pro tem, recognized Representative Parker, Republican, of New Jersey, who began denouncing those who would try to amend the proposed amendment to the filibuster.

The Speaker had said an elephant could interrupt the business of the House, he declared.

Mr. Parker was frequently interrupted by the Speaker like this.

Representative Dwight, the Republican whip, at the same time announced that seventeen Republican members, who were unrepresented by Democrats, were on the way to Washington.

"They are coming from New York, and the last to make the arrangements for the special left at 11 o'clock. We said, 'Some will arrive before midnight, others not until tomorrow. With these additional votes we hope to stem the tide.'

Lad Crouches and Barks When Apprached—Starles Pedestrians With Savage Growls.

[ASSOCIATED PRESS DAY REPORT.]

SAN FRANCISCO, March 16.—After losing his memory for six weeks, Lowry Anderson awakened today in a room of the Detention Hospital, to find his wife lost and his 4-year-old son in an orphanage.

Physicians call this kind of hallucination "chorea." Hypnotism is believed to account for the man's memory, and an uncle of young Madison has brought him to San Francisco to be treated.

While walking along the street on the way to a doctor's office the boy started barking like a dog and growling. He was still growling when the physician's quarters were reached, but by gazing fixedly into the lad's eyes and hypnotically combatting the sufferer's delusions, the doctor managed to quiet his patient.

Medical students at Stanford University have had the boy under observation for some time and the case has attracted much attention from the medical fraternity.

VICTIM PLEADS FOR THIEF.

Will Take Erring Lad into Employment. Court Places Amateur Burglar on Probation.

[BY DIRECT WIRE TO THE TIMES.]

STOCKTON, March 17.—[Exclusive Dispatch.] Wesley Fraser, an 18-year-old boy, who formed a partnership with Harold Freeman, a much older man in San Francisco, to engage in burglary, today was given a chance to reform. He was caught on his first job.

Fraser appeared before Judge Nutter to be sentenced and expected to serve several years but J. Breidenbach, whose son he is, interceded, asking that he be placed on probation in his charge, as he had talked with the boy and found that he had been misled by the older man, who had painted a rosy picture of the money the two would make robbing houses.

Fraser was sentenced to a year and a half, but placed on probation. Breidenbach at once purchased the boy a suit of clothes and took him to his home. He will find employment for him and do all he can to see that he grows up.

Though divers have worked many hours, they have failed to find the jeweler the burglars threw into Stockton Channel. Freeman, the leader in the robbery, was sentenced to San Quentin for eighteen months.

FARMER MISSING.

DEPRESSED BY REVERSES. [BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, March 17.—[Exclusive Dispatch.] Edward Walker, for many years an employee of a local dry goods store, but lately turned farmer, left his home yesterday and has since been missing. Though Walker is a man of considerable means he has met with some reverses, which evidently preyed upon his mind. For several years he has been a successful anchovy. Upon his retirement from the dry goods business he purchased an alfalfa farm near Marysville. He injured his health by doing heavy work and a success in this venture. Walker is 50 years old and has a wife and two young children.

25c Colored Madras 15c Yd.

36-inch colored madras in dots, stripes and figures for women's waists, boys' waists and men's shirts; worth 25c. On sale today, 15c a yard.

WASHINGTON.
JAPAN WANTS
NEW TREATY.Would Form Closer Alliance
With United States.Willing to Drop England as
Direct Ally.

Doubts Motives Behind European Offers.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, March 17.—(Exclusive Dispatch.) Additional questions not foreseen at the time of the Root-Takahira agreement, setting forth in general what was the right of Japan to have and the United States in the Far East, was drawn up, are responsible for the Japanese empire's desire to supplement it with another, worded more explicitly.

The time for this change in propulsions. Japan is now revising all her treaties with foreign countries, and attention will be paid also to all agreements and notes. The Root-Takahira agreement will come in for changes which are to be embodied in the notes. To Baron Takahira, the former Ambassador, has been delegated the duty of revision.

The publication this morning of the tenor of the proposed pact, which is to be presented to the State Department at next July, shows that officially recognizing the spirit of cooperation existing in the Orient and in China in particular. This is the way diplomats viewed it today. They are optimistic because of Japan's strong desire to add the notes of existing documents by supplementing them with one that defines the latest questions.

ANNOUNCED IN JULY.

Both the Japanese embassy and the State Department knew officially that Japan is now drafting the new treaties to supplement existing ones with the powers. Their texts will be announced next July. Under this arrangement drawn between Secretary of State Root and Baron Takahira, if no new pact is concluded, no vague to be used. The newer note will obviate these difficulties.

The note will be categorical and diplomatic language will be used throughout.

Again, it is not possible to learn officially at the State Department of its attitude in receiving this new pact upon presentation. Indications are that it will be given unusual consideration, and that it will be accepted, if not too formal.

This is due to England's position. England wishes to get away from her treaty with Japan, and Japan, too, is so at the expiration of the Lancastown-Hayashi agreement. Japan is desirous, however, of having a government support her in the Orient without committing her against any nation.

DOUBTS EUROPE'S MOTIVES.

The reason for this is that Japan does not feel capable of taking care of the commercial and industrial future of China, but she also has her doubts as to the motives behind offers of certain European governments. With the United States ready to develop the Far East in accordance with every provision of American "commercial equality" and without uttered more than a few words, Japan fears that China's future and freedom from contention is assured.

Some of the points to be added to the new pact, not included in the Root-Takahira agreement, and which could not be embraced by the notes, are: its vague wording, are these: Consolidation in Asia, especially along the Pacific shores.

To include Great Britain in the new pact if she does not belong to the party, by a triangulation of interests; or to associate England entirely without in any way jeopardizing British interests.

Further definition of fisheries rights.

Japan will agree to maintain peace so long as her own sovereignty is not menaced.

Five years will be the time limit for the operation of this pact.

RAISES POSTOFFICE RANKS.

Huntington Park Put in Presidential Class—Also Silver Bell and East Ely.

BY DIRECT WIRE TO THE TIMES.

WASHINGTON, March 17.—(Exclusive Dispatch.) Another indication of Los Angeles' growth is given by the announcement of the Postoffice Department that the post office at Huntington Park will be advanced to the Presidential class in April, with a salary fixed at \$1000 per annum.

Silver Bell, Ariz., will also get into Presidential class, with a \$1000 salary.

East Ely, Nev., is advanced at the same time, with a \$1200 salary.

BIRDS AMERICANS.

TURKEY DISCRIMINATES.

WASHINGTON, March 17.—American shipbuilders, through an unusual action by the Turkish government, have been deprived of the opportunity to submit bids for the construction of the warships for the Ottoman government to cost approximately \$25,000,000. It had been understood that the opportunity to bid was to be kept open for several weeks to give American shipbuilders an equal chance to submit their bids. The discrimination now learns that the contracts are to be awarded to English firms without competition.

WASHINGTON BRIEFS.

New Nester Postmaster Named.

WASHINGTON, March 17.—William F. Windhurst has been appointed postmaster at Nester, San Diego county, vice G. Johnson, resigned.

MRS. TAFT GOES SHOPPING.

NEW YORK, March 17.—Mrs. William H. Taft, wife of the President, is in New York on a shopping expedition, and is a guest at the home of the President's brother, Henry W. Taft. When she returns to Washington she will have paid her first visit for both living and summer, and will return to Washington from any trials

LAUDS SAINT
IN CONGRESS.

House Chaplain Refers to Ireland's Patron in Opening Invocation.

BY ASSOCIATED PRESS NIGHT REPORT.

WASHINGTON, March 17.—St. Patrick's day was referred to by Chaplain Couden today when he opened the session of the House with the invocation: "We thank Thee." The chaplain prayed, "that good men do live to inspire, ennoble and purify those who come after them; that today the name of Ireland's patron saint will be hallowed in the hearts of men irrespective of race or creed in recognition of his patient self-sacrificing devotion in carrying the light of the gospel to a benighted people."

STAGGERING.

BACON INDORSES
AMERICAN IDEA.

ADMIRAL BELIEVES IN BIGGER BATTLESHIPS.

British Naval Expert Declares Link Between Huge Dreadnaughts and Ocean-going Torpedo Craft Grove Stronger—Will Revolutionize Present Methods of Sea Warfare.

BY DIRECT WIRE TO THE TIMES.

LONDON, March 17.—(Exclusive Dispatch.) The American idea of building much larger battleships than now exist was emphatically endorsed by Rear Admiral Reginald H. S. Bacon in an address before the Institute of Naval Architects. Larger and faster ships, less heavily armored, carrying bigger guns and the deadliest instruments of offense and defense, will be used in future naval wars, declared the speaker.

He said the link between ocean-going dreadnaughts and the battleship had become closer and the latter would develop into a battle unit of a powerful center surrounded by a flotilla of swift torpedo craft. Thus, he concluded, the battle line as now known would disappear and a naval action would consist of an aggregation of duels between battle units, the core of which would be dreadnaughts of 40,000 tons or more.

Admiral Bacon's views are the sensation of the day in both technical and popular circles. Several famous naval experts offer some criticism of the address, but apparently none is inclined to attack it, views it with vigor. One popular naval critic asks whether progress is not becoming too rapid and terrible for endurance.

All the hope that philosophers can extract from the prospect is that the unpredictable gaieties of future wars must tend to make them impossible.

M'KINLAY, MISSIONARY.

California Congressman to Tell Kansas of Administration's Conservation Policies.

ASSOCIATED PRESS NIGHT REPORT.

KANSAS CITY, March 17.—Congressman Duncan C. McKinley of California arrived here today on route to Olathe, Kan., where tonight he will deliver the first of a series of fourteen addresses in Kansas on the tariff and conservation.

He is to speak on the subject of Great Britain in the new pact if she does not belong to the party, by a triangulation of interests; or to associate England entirely without in any way jeopardizing British interests.

He will speak on the subject of fisheries rights.

DOUBTS EUROPE'S MOTIVES.

The reason for this is that Japan does not feel capable of taking care of the commercial and industrial future of China, but she also has her doubts as to the motives behind offers of certain European governments.

J. J. HILL SAYS WE LIVE IN
"AGE OF FINANCIAL DELIRIUM"

BY ASSOCIATED PRESS DAY REPORT.

S. T. PAUL (Minneapolis) March 17.—The address of James J. Hill, chairman of the board of directors of the Great Northern Railway, on "Conservation of Capital" was the feature of the forenoon session of the State Conservation Congress today. Howard Elliott, president of the Northern Pacific Railway, presided.

The general subject of the session was "Economic development in Minnesota." The other speakers were Prof. E. W. Robinson of the University of Minnesota, who spoke on the "Farm Wealth of Minnesota," and Prof. A. E. Chapman, superintendent of the Forest Service, who spoke on "Agriculture—A Science and Competitive Business."

Great interest was taken in the speech of Mr. Hill, who declared that "we are living in an age of world-wide financial delirium;" that next "after conservation of land, its area, use, ownership, must be the conservation of capital." The word "capital" was the subject of the session.

GOOD WORK.

ARVELS ON MOTORDROME.

eat Prospects for Opening Tuesday Morning.

Experts Declare Track to Be Fastest in World.

ldfield Congratulated by Emperor William.

motor interest centers in the opening of the Los Angeles Motordrome yesterday. Most of the motor fans, and the racing drivers are to be on hand to inspect the track which experts declare is the fastest in the world.

That circuits will be made at a speed of 100 miles an hour or even faster, those who have inspected the track are certain. All records from 100 to 500 and then on to the 1000 miles are to be lowered on this course, to those who have ridden around the track.

The Los Angeles Motordrome is the only board track of the kind in the world. It is in the shape of a pie pan and allows the fastest speed possible.

Its course is regular and racing cars appear as flies on the smooth surface of the motordrome as horses in a race.

Hay Harrow in Marion is the first to make any high speed on the course. He reached the eight mark in half mile. He is certain that with the track completed he can reach the 1000 miles mark and make it fast.

What Barney Oldfield did is problematical. That speed marvel should establish a record that will put him in the record books.

The pit-track course lends itself to the greatest speed possible. Cars can be driven at a speed such as dirt tracks do not allow. The track, in addition, will be safe, as the drivers will always open the throttle to the limit before they send the machines after a record.

OLDFIELD IN RIGHT.

KAISER LIKES HIM WELL.

(BY DIRECT WIRE TO THE TIMES.)

DALLAS, (Tex.), March 17.—Exclusive Dispatch.—A telegram of congratulations from Emperor William of Germany was received today. Barney Oldfield, who, yesterday drove the fastest mile ever traveled, using a German-made car, the Kaiser's message read: "I congratulate a daring tank on his remarkable performance with the German car."

The same car, which Oldfield drove to victory was used by the Kaiser's favorite racing driver, Hemmery, when he made a world record at Brooklands, Eng., a few months ago.

W. H. Miller, of New York, received by Oldfield from Fred Martini, of Newton, Mass., who made the mile record four years ago, and from the Miller brothers, who built the car.

Oldfield is resting and decides he will cover a mile in 26s during the races here on Tuesday. A wire from New York tonight advising George Miller, of the Miller brothers, who died today, caused the Vanderbilt winner to leave for the East. He will return for the races.

De Palma and Caleb Bragg leave for Los Angeles tomorrow.

COLISEUM RACES.

Motorcycle Enthusiasts to Enjoy Contest Between Professionals and Amateurs Sunday.

Motor fans are taking a keen interest in the scheduled match motorcycle race, Sunday, at the Coliseum between F. E. Whittier and Jake de Rosier. These two champions, the fastest motorcycle riders who have ever visited the Coliseum, are to meet in a race that should prove one of the best races ever pulled off at the saucer track.

Another fine race is the free-for-all another event, in which Lingerdeed, Whittier, and Rosier and Whittier will ride.

This race will claim almost as much attention as the match event. It is the first time four topnotchers have been started together.

A few amateur contests in four quarts of speedsters will be given Sunday afternoon when the four men are to be sent away on the fast grand.

Another match, in which Lingerdeed, Whittier, and Rosier and Whittier will ride.

FRIDAY MORNING.

SUPPRESSED.
MADE MYSTERY
OF EXPLOSION.Jan Dies in Hospital from
Fateful Burns.Brother Also Injured When
Oil Tank Explodes.No Reports Made to Police of
Accident.One man was killed and another
seriously burned yesterday morning
when a lighted candle ignited an oil
tank in one of the boiler repair shops
of the Southern Pacific Railroad yards
near the Edison Electric Company
power house.Auguste Sorpigli, foreman of the
shop, went into a dark part of the
shop to search for some missing tools.
He carried a lighted candle, from
which a drop of wax fell and came
into contact with the opening in an
oil tank. A terrific explosion followed
and he was hurried several feet where
he lay in a mass of flames.His brother, Martin, was nearby,
and was thrown to the ground, but he
managed to regain his feet and went
to Auguste's assistance. The oil
brought his clothes and he was sent
out while trying to put out the
flame.Auguste Sorpigli was taken to the
General Hospital, where he died early
last night. The body was removed to
the morgue at the Alhambra and, when
it was reported late last night as in
a serious danger.The foreman was 22 years old and
married. He lived with his brother.
The body was turned over to the State
Coroner, who will make an inquiry to-
day.Explosive oil is said to have been
a distinct cause, kept in a small
can which had been left open over-
night. The blame for the accident
can not be fixed by the Coroner's inquest.Although the accident occurred at a
point in the shop where Sorpigli
and his brother were working, the
name of the man killed, he took
no body, on telephone, instructions
from the shop, and the way in which
he was treated at the hospital.The exact address of the injured
brother could not be given by the un-
der-takers and persons who answered
the telephone at the Sisters' Hospital
had no knowledge of the accident.
They also stated that they were
not sure he was injured in an explo-
sion."BUCKEYES"
PICTURE STORY
OF BETKOUSKI.FIFTEEN HUNDRED GATHER AT
EVENING RECEPTION.Former Head of Chamber of Com-
merce Tells Them There's Only One
Bitter Commonwealth, and That's
California, Though He Was Born in
Ohio.About 150 former residents of Ohio,
who are or soon will be converted
to California, gathered last evening at
the reunion and reception given at the
Chamber of Commerce under the aus-
pices of the Ohio Society.William D. Stephens, past president
of the Chamber of Commerce, made
the address of welcome in place of
Joseph Scott, who was unable to be
present.Mr. Stephens is a former "Buckeye"
himself, and he extended a hearty in-
vitation to all Ohio people to visit
the Chamber at any time, where they
will be given all information in regard
to the State's activities."Ohio is a good State to be born in,"
said Mr. Stephens. "There is just one
other—California. I myself was
born in Ohio, and have a great regard
for the State.""You will notice too, that the ordi-
nance specially exempts advertise-
ments painted or pasted on the sides
of buildings."I might add that Mr. Earl's build-
ing on Fifth Street has great painted
signs on its sides, just as big as it could
be made. I might also add that Mr.
Earl used billboards extensively in ad-
vertising his paper. Sentiment did
not enter into it then. Again I think
I can add another picture of Bill
Earl's building, which is 125 feet long
and was maintained on Mr. Earl's
property advertising a store and Mr.
Earl got the pay for it being there."Mortenson insisted that the bill-
boards maintained by the Vanney com-
pany, artistically made, are no of-
fense, represent intelligent publicity on
the part of merchants and others and
are structurally safe. He said they
were carefully put back of the street
lines, except where they were used for
enclosing lots and prevent dep-
redation."But you make such a fence ten feet
high where an owner would only make
it six," said Lusk.Mortenson smiled. He explained that
the fence was not peculiar to Los
Angeles; that the dimension was
standard for the whole country; that
large advertisers contracted from
ocean to ocean for space and that their
bills were composed by both lithograph-
ers and engravers in order to eliminate
objectionable things."The aqueduct is a success," he said.
"It will complete it will cost less,
furnish more water, better water, and
be a greater success than was first
estimated. Over 1,000,000 of dollars
is now finished. That does not mean
more than half the distance has been
covered, but the most difficult part
has been done, and when completed
there will be water enough in Los
Angeles for over 2,000,000 people."Mr. Stephens returned a few days
ago from a trip along the Los Angeles
aqueduct and he gave an interest-
ing account of what he observed
during his trip."The aqueduct is a success," he said.
"It will complete it will cost less,
furnish more water, better water, and
be a greater success than was first
estimated. Over 1,000,000 of dollars
is now finished. That does not mean
more than half the distance has been
covered, but the most difficult part

PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

Thirty-two factories in the south-east part of the city have shown the necessary protection, and are protected, which the Chief approved.

Judge Houser yesterday furnished a statement of how the public business has been transacted in the Courthouse during the past year.

The marriage of Clarence A. Wilkinson and Lillian A. Wilkinson was annulled by Judge Blodow yesterday. Wilkinson was a rapid-fire marrying man.

Judge James delivered an important opinion as to the rights of intervenors in judgments yesterday.

William R. Stants Company was sued for \$2000 damages yesterday because, as agent of a real estate owner in Pasadena, it had rented a home on California street to S. S. Crow, whose wife was afflicted with consumption.

AT THE CITY HALL.

FACTORY AREA IS IN DANGER

NEEDS FIRE HYDRANTS AND NEW FIRE ENGINES.

Position of Thirty-three Factories in the Southeast District Reveals Existing Situation to the Fire Commission—Loan Sharks Are Finally Busted.

That the area bounded by Central avenue, Ninth street, Santa Fe avenue and the south city limits is practically without fire protection was the report of Chief Lipp to the Fire Commission yesterday. The report came in response to a petition from the Hughes Manufacturing Company, the L. W. B. Blinn Lumber Company, the National Hardwood Lumber Company and thirty other manufacturing plants in the neighborhood of Sixteenth and Alameda streets.

The chief finds that there are five fire hydrants on Alameda street between Fourteenth and Sixteenth streets, and only three fire hydrants on the six-inch main on Santa Fe avenue. The nearest hose company is nine blocks distant and it has but 100 feet of hose, a half-distant and the six-inch main would not supply more than two engines, while six would be required in case of a fire of any magnitude.

Chief Lipp also reports that the City of the Woods Department is again installing fire hydrants where the consumption for private hydrants is unprofitable. He urged the board to come up with the necessary funds for the necessary of providing sufficient fire hydrants for the district. The few hydrants that are there, he reports, provide protection of only fifty yards. This is wholly inadequate.

It is estimated that the manufacturing plants asking protection represent \$100,000,000 in investment and that a new engine, hose and ladder wagon to be used in the area where the fire department is now located, would be required. The commission decided to have the water board for extensions and hydrants.

All members of the fire department drew their own pay warrants this month, according to a report made by Captain E. C. Hawley. The chief has been watching the result of the rule the commission adopted a month ago, requiring all employees to revoke their pay of \$100 a month by loan checks and he finds that it has not worked.

This is the first time in years that this has happened. City employees cannot remember the time when some of them did not draw a regular payroll under such power of attorney. Just what has happened to the loan sharks is not known by Hawley, but he imagines something must have happened. Hawley says he doesn't care.

The commission yesterday suspended Capt. T. M. Fernandes, in command of the Aliso station, over town, because of a check made by Mrs. Fernandes. She says the captain has deserted her and their 8-year-old child and refuses to give support. Fernandes was suspended for two weeks. He will be back next meeting to show cause why he should not be dismissed from the department.

MARCH AQUEDUCT RESERVES. Chief Engineer Mutholland, of the aqueduct, has stated to the Advisory Committee that he expects March to be a record breaking one for tunnel work. In spite of the fact that the fact that all the labor needed has not been found, he believes the rate of progress already established will bring the mileage of tunnel work during the month of March to nearly 4000 feet. The aqueduct is employing nearly 4000 men but could use several hundred more and applications are being received now at the offices in the Central building for those who are willing to do tunnel work. As many of the laborers are not able to pay their way the aqueduct officials are considering the advisability of sending a special for their convenience.

CONDUIT IN SIXTH STREET. The Council Committee on Streets and Boulevards have recommended that the Sixth street, from Cypress to Los Angeles, be included in the six-inch conduit district this year because it is desired that the underground work be done before the street is improved.

Frank Wilkinson, who has the paving contract, has agreed to delay its work. Whether the distance will be included in this year's maximum imposed on the committee is not known. The work next year, has not been decided.

WILL RESOURCES STREET. The Los Angeles Gas and Electric Corporation will resource the paving of Sixth street from Cypress to Los Angeles, without cost to the city. The company recently tore it up to lay a main and believes resurfacing of the street will be accepted by the Council Committee on Streets and Boulevards approved the proposal yesterday.

VERMONT AVENUE BRIDGE. Residents of Vermont avenue and Temple street have petitioned the Council for a new bridge on Vermont avenue over Temple street. They represent that Vermont avenue is now about one twenty feet, dilapidated and dangerous, besides being inadequate and unsightly.

INTERVENOR'S RIGHTS. DEFENDED BY JUDGE JAMES. Judge James rendered an important decision yesterday in the case of W. R. Dunseath against Sidney E. Beach, involving the question of the rights of intervenors in certain actions, that will be of much interest.

The motion was made by the plaintiff to strike from the record an affidavit in intervention, and filed by H. F. Strow, after a certain sum had been deposited with the County Clerk of await this controversy as between the plaintiff and defendant.

PLATES CURVED IN 6 TO 14 DAYS. Price statement is guaranteed to cure any case of fishing, blind bleeding or sunburn in 6 to 12 days or money refunded.

GRAY HAIR RESTORED TO ITS NATURAL COLOR. Price statement is guaranteed to cure any case of fishing, blind bleeding or sunburn in 6 to 12 days or money refunded.

AT THE COURTHOUSE.
SOME FIGURES UPON DIVORCE.

LOCAL JUDGE ACCUMULATES A FEW STATISTICS.

Shows That Total Number of Judgments Entered or to Be Entered, Since the First of May, Last Year, to Next May, Aggregate Nearly Seven Thousand.

Judge Houser has prepared a statement from the Judge's desk in the office of the County Clerk, showing the number of judgments entered during the year preceding, as well as during the year following May 1, 1909, the date when the rule was enforced assigning all divorce actions to one department.

As three judges were added to the county about March 1, 1909, it is necessary to compute a proportion of the judgments entered between March 1 and May 1, 1909, as well as between May 1, 1909, and May 1, 1910. The figures follow:

Judgment entered from May 1, 1909, to March 1, 1909; interlocutory divorce decrees, 575; final divorce decrees, 1000; judgments entered from March 1, 1909, to May 1, 1909, 1021; interlocutory divorce decrees, 522; final divorce decrees, 121.

Not considering final divorce decrees as judgments to be computed and deducted 121 from 1108, there remain 1000, 1909 to May 1, 1910, 1000, deducting the proportion for nine judges gives 597. Deducting 597 from the 1000 gives 5197 as the number of judgments, including interlocutory divorce decrees entered by nine judges (estimated) from May 1, 1909, to May 1, 1910.

Judgments entered from May 1, 1909, to January 1, 1910, 4603; interlocutory divorce decrees, 633; final divorce decrees, 1000; judgments entered from January 1, 1910, to March 1, 1909, 1108; interlocutory divorce decrees, 94; final divorce decrees, 182. Judgments to be entered from March 1 to May 1, 1910 (estimated) gives 5197 as the number of interlocutory divorce decrees, 5197; final divorce decrees, 94.

Deducting the number of final divorce decrees from the total number of judgments (1000) gives 4997 as the total number of judgments for nine judges, gives 4997 as the total number of judgments (estimated) in the year 1909.

Complaints that old soldiers were being fleeced of their pensions in a gambling den, "Giant Hollow," near Sawtelle, led to a raid on the place by the District Attorney's office assisted by Capt. Austin of Pasadena and Capt. Starzman of the Home, yesterday.

Seven veterans were engaged in playing stud and draw poker with Henry March, the alleged dealer, and the inmates of their office here. There was a terrible scramble among the veterans when they glanced up and saw Starzman. They realized that trouble was in the air. There was a dash for the table and the veterans, as designated. Most of the proprietors of the inimitable corset.

The soldiers wanted to save what they had and quickly stashed the money in their pockets.

One veteran had a large stack of chips of various colors in front of him. He was ahead of the game and did not fancy the idea of losing his winnings. He crammed the checks in his pockets and recurred to his coat in his pocket. He forgot that there would be no chance to cash them when the officers got through.

The seven veterans were marched away to the guardhouse to be sent to the State Prison at Pasadena and placed in jail after he was arraigned before Justice Klamroth.

The information given the District Attorney was that the pension money was not being collected square, and that the pension money was taken from the veterans without giving them a chance to win anything.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

CHANGE OF NAME. Judge Wilbur yesterday allowed the petition of the Schwabe-Atkinson Motor Car Company to change its corporate name to the Perfect Motor Car Company.

VERDICT FOR DEFENDANT. In the action brought by C. Herbert Diamond against A. F. Tandy and W. P. Story for commission amounting to \$2000, alleged to be due on account of services rendered in connection with the defense of the defendant, and that the commission was \$1000.

The foregoing figures show that since the adoption of the system assigning all divorce cases to one department, there has been a decided improvement, especially during the year 1909, to May 1, 1910, than there was during the preceding year, by 500 entered judgments; although the entered interlocutory divorce decrees show a gain of 42.

LOVE AND VANITY.

HUSBAND GETS DIVORCE.

On account of the rush of business in Judge Houser's court yesterday, Judge Rivers heard the divorce actions and he disposed of four in a short time. Among those that required the attention of the court was one brought by John H. Hidley against Hattie A. Hidley, attorney being the allegation made and proved to the satisfaction of the court, who allowed an interlocutory decree on that complaint. The wife is now making her home in Los Angeles.

It was shown by the testimony that Mrs. Hidley was one of the leading singers connected with a local church and that she had contributed her talents to the benefit of the organization in many public appearances.

The alleged co-respondent in the case was "John Doe" Lawrence, also a musician, the two being thrown together by their mutual musical and professional engagements. Then the husband became suspicious, and he hired a detective, J. C. Marston, who reported the result of his investigations, and he learned that he had been married once before and had never been divorced.

There was a world of affuity and soul-mate stuff in the evidence touching the relations of the two with a not a few of the spectators.

He should do better getting the woman a position on the stage, taking her to New York, where she would make her debut, etc. The actions complained of, it is alleged, took place at the residence of Hidley on South Thomas street.

ANNULEMENT ALLOWED.

INVOLVES KANSAS BOY.

Judge Blodow, sitting for Judge Hutton in Department Four yesterday, granted the petition of Lillian A. Wilkinson for the annulment of her marriage to Clarence A. Wilkinson, which took place in Los Angeles July 31, 1907. The couple have been separated until October 4, 1909, when he deserted her, and is now supposed to be in San Francisco. Soon after he left she learned that he had been married once before and had never been divorced.

In July, 1907, Wilkinson married Miss Pearl Weekley, but deserted her at Yates Center, Kan., and within ten days after his arrival in Los Angeles, he married Miss Whitson, who sought relief in yesterday's proceedings.

It seemed from the evidence that Wilkinson was a rather bad citizen that he had been guilty of assault and battery and that he had been given a suspended sentence by the court.

The father of the young man, Frank Wilkinson, who now lives at Glendale, was called in and he and his son and his first wife assisted in "getting out" the paper.

In allowing the decree of annulment, the court was concerned in his opinion the case called for an inquest of lunacy on Wilkinson or his arrest on a charge of bigamy.

INTERVENOR'S RIGHTS.

DEFENDED BY JUDGE JAMES.

Judge James rendered an important decision yesterday in the case of W. R. Dunseath against Sidney E. Beach, involving the question of the rights of intervenors in certain actions, that will be of much interest.

The motion was made by the plaintiff to strike from the record an affidavit in intervention, and filed by H. F. Strow, after a certain sum had been deposited with the County Clerk of await this controversy as between the plaintiff and defendant.

ACCUSED OF CONTEMPT.

Leanne Zumalt was before Judge Houser yesterday on charge of contempt of court in having removed the papers in the divorce suit brought against her by her husband, Allen L. Zumalt, from the office of the County Clerk. The woman claimed that her attorney in Oakland had told her to do this.

She thought the papers handled her by one of the deputies was what he desired. As soon as she discovered her mistake she returned the document. The woman was allowed to go after a reprimand from the court.

UNACCUSED OF CONTEMPT.

Leanne Zumalt was before Judge Houser yesterday on charge of contempt of court in having removed the papers in the divorce suit brought against her by her husband, Allen L. Zumalt, from the office of the County Clerk.

The woman claimed that her attorney in Oakland had told her to do this.

She thought the papers handled her by one of the deputies was what he desired.

GRAY HAIR RESTORED TO ITS NATURAL COLOR.

Defendants were the agents of Ellsworth in the renting of the premises, No. 725 California street, Pasadena. Later the property was leased for four months by S. S. Crow, and it is alleged that Mrs. Crow was a widow of the deceased. The property was then sold to the City of Pasadena, which has been deposited with the court.

The intervenor is a judgment creditor of the plaintiff, having obtained a judgment, and he caused to be made a writ of attachment, under execution issued upon the judgment, and contends that he has an interest in the property.

Judge James said that the court in its discretion might permit property within its control to be used for the payment for the benefit of third parties, but in a majority of cases, that holding was made when the court, through its receiver, had taken charge of the property.

Judge James said that the court in its discretion might permit property within its control to be used for the benefit of third parties, but in a majority of cases, that holding was made when the court, through its receiver, had taken charge of the property.

THE OIL INDUSTRY.

LAKEVIEW IS BIGGEST YET.

Tremendous Oil Gusher in the Sunset Field.
Thirty Thousand Barrels Is Estimated Flow.

Well Has a History That Is Somewhat Unique.

DESPONDENT OF THE TIMES.
BAKERSFIELD, March 17.—The Lakeview Oil Company's well No. 1 on Section 15, 12-13 in the Sunset field, which began operations at 8 o'clock Monday night by blowing the baler into the crown block, bled 24,000 barrels of oil gravity all the first twenty-four hours and then, with a subterranean explosion sending up a shower of rocks that filled the derrick with sparks and tore away the crown block and the top of the baler altogether, it began flowing 20 gravity oil at the rate of 50,000 barrels a day.

The new well is nearly the premier of the state, surpassing the palm from the previous May's gusher of North Midway, which bled at a tremendous rate on two days, but only for short periods of time. The May well is still standing up after its fast performance, but the Lakeview is increasing its flow, and is rapidly clearing out of sand.

Dividends of the company believe that when thousands of rocks were sent up with the first gush, it was drilled into a well that was a foot in the sand when the first explosion of gas occurred. The rocks and the sparks from the friction of the sand in the well drove the drill into the sand in the well, and all hands have been working overtime providing an outlet for the oil.

For the last week the

Los Angeles Transportation Company's pumping station is located on the Lakeview's land, and two four-inch

and six-inch lines are forcing oil through the two four-inch lines from the pump station to the well.

The company has two

dividends. These are not near-

enough, however, and a six-inch

and six-inch line are being

put into the well, and arrangements

are being made to construct a

second pumping station.

The history of the company is full of

it. It was organized a year ago

and was headed by Charles F. Off, R. D.

and E. C. Keita, and all of Los

and 200,000 barrels were

produced by Julius and

Barrett & Duna. The stock

holders of the Lakeview spent \$70,000

in the first year.

At the end of the year, there were

200,000 barrels of oil in the

company's tanks.

Los Angeles Union Oil Company

and the Lakeview's land was

leased to the Los Angeles

and the Lakeview's officers were

in the process of buying the big

company's stock.

From the big gusher, the

company expects an accident. A few

days later it came in a consultation

and it was decided to stop

the work of fear of an

explosion.

They were sending the baler

up the well and turned it into the crown

block and

then the baler exploded.

Others who are interested in

MORTER CUT
O PASADENA.A Twelve-Minute Line Is
Due Next Year.Anistic Announcement by
Company Officials.Opening to Be Begun in
Coming July.

of the Pasadena Rapid
Company who is planning
a twelve-minute nine-mile
from Pasadena to Los Angeles
expect the line to be in operation
the middle of August of this
year, and work upon the line is
beginning July 15 of this year.
30,000 shares of capital stock
company, with a par value of
more than 20,000 shares have al-
ready been placed, and upon the
of 2000 miles of road, work
completing the right of way will be
up. Within a year from the
acquisition the trains are
to be in operation.
Company officials state that al-
most 10 per cent. of the right of way
is purchased, and that \$50,000
stock will be set aside for the
of the right of way, while
\$50 will be the cost of construction
and equipment.

ROUTE PLANNED.

Official statement issued yes-
terday afternoon, Dobbins announces
the rapid line company has
route platted and mapped from
western end of its right of way
Los Angeles, and that one of
routes will be decided upon at
the earliest opportunity.

North, Northwest and North-
Improvement Association, head-
Joseph Meeser, has assured us
a special committee that we
not be forced to demand any
in coming into Los Angeles,
that the property owners in the
city of the will aid us in
way," says Dobbins.

urt Dismisses Claim of Father Schott
Against McMahon Estate—Signed
ture Not Genuine.

BY DIRECT WIRE TO THE TIMES
CHICAGO, March 17.—[Exclusive
speech] Probate Judge Cutting to-
day dismissed the claim of Father
Schott, Catholic priest, against
an estate of Father Peter McMahon,
who died in 1902. The court de-
cided the claim was based on a
signature on the McMahon
will and that the note pronounced
not a forgery.

There is one thing further I want
say, and that is there will be no
avoidance of grade crossings we
be enabled to complete the
two-minute line within a year from
the time we begin work, for the
con- with whom we have been
say that three shovels work
and day will be able to finish
part of the work in much less
time.

The right of way question is a
one, for I have already pur-
22 pieces of property for this
without lawsuits or trouble of any
kind, and the property owners
the terms which we have
mind is assessed at only \$80,000.
assessment is on a \$50 per cent.

RAISE FUNDS FOR LAWSUIT.

Burbank Farmers Will Take Water
Case to the Supreme Court After
Getting Money.

OFFICIAL CORRESPONDENCE OF THE TIMES.

BURBANK, March 17.—A special
farmers' water meeting was held in
Lutte's Hall yesterday afternoon to
discuss the best way of carrying the
proposed water suit to the Supreme
Court. The committee consisting of
W. R. Rutherford, R. O. Church, L. B.
Dean, C. E. Salesbury and E. A.
Knap, reported it was necessary to
raise \$6000. An assessment was made
at the rate of \$1 for every acre of
property owned and \$3000 was raised
during the afternoon.

The funeral of Mrs. Mary E. Rich,
who died of pleurisy, was held yes-
terday afternoon and interment was in
Grand View Cemetery. Mrs. Rich was
years of age and an old soldier's widow.
She came here a number of years ago from Vermont. She leaves
four sons and one daughter.

C. B. Fischer, a local real estate
agent, has sold the Cartwright
property on Second and Olive street,
consideration \$6000.

How small the pain,
How great the loss,
A moment's joy
A life's remorse!

—MORTON.

I THINK that most wrongs, if not most
sins, are done in moments of
sudden, impulsive, or through a
desire to please others. The old hu-
man heart never ceases to hunger for
love, whether in a year-old baby or an
egocentric adult. It is love, if not
entirely different, medical and sci-
entific world are just beginning to
understand. It is a
mighty moral, as
well as the healing
influence of love.
At the bidding of
such men and
nations climb to
greatness. It is
the power that
will eventually
dismantle
armies and bring the
whole human family into
one great family where the interests of all
of one will be the interests of all.

It is well understood by the medical
profession that anger and greed do more
harm than any other disease, and shorten life than all other causes com-
bined.

I do wish that the
readers of this ar-
ticle would join us
in spreading "Hope-
ness" and do most
earnestly ask every
ailing person, no
matter what his
disease may be, to
think hopefully, to
talk hopefully, to
act hopefully, to
concentrate all
things to
assist the deserv-
ing and to send out hopeful messages to
all mankind.

Every person who has a cold to
try my Cold Cure. I know that it is
harmless and is doing a great and good
work in warding off pneumonia and
serious disease.

was very rheumatic to try my
Rheumatic Remedy, with the under-
standing that if it does not give the
desired result I will refund the money.

I want everyone
who is suffering
with any kidney ail-
ment to try my Kid-
ney Remedy. Thou-
sands of testimonies
from those it has re-
stored to health have
recently come to this
office. It takes away the
backache, the dragging
down pains, the pur-
ring of the kidneys, the
swelling of the limbs and all the
painful symptoms of kid-
ney affection.

I want every dyspeptic, every person
who is troubled with any form of indi-
gestion to try my Dyspepsia Remedy.
It will not make an old stomach new, but
it will enable one to eat almost anything
without fear of indigestion.

I want every nervous person to try my
Nerve Cure and see how quickly it will
give rest to the tired nerves and strength
to the weak system.

I want every person who suffers with
Piles to try my Pile Ointment, which
stops almost every form of piles.

I want every person
who is troubled with biliousness,
constipation, or any
other bowel trouble
to try my Bowel Remedy.
I want every person to try Mun-
ton's Paw Paw Pills. They are hav-
ing a tremendous
and are doing a
mighty work for
humanity. These
pills keep not only
the bowels in good
shape, but they cleanse the lower bowel,
and soon habituate the bowels to act
regularly without any assistance.

BUILT IN A YEAR.

is sure, however, that even with
avoidance of grade crossings we
be enabled to complete the
two-minute line within a year from
the time we begin work, for the
con- with whom we have been
say that three shovels work
and day will be able to finish
part of the work in much less
time.

The right of way question is a
one, for I have already pur-
22 pieces of property for this
without lawsuits or trouble of any
kind, and the property owners
the terms which we have
mind is assessed at only \$80,000.
assessment is on a \$50 per cent.

RAISE FUNDS FOR LAWSUIT.

Burbank Farmers Will Take Water
Case to the Supreme Court After
Getting Money.

OFFICIAL CORRESPONDENCE OF THE TIMES.

BURBANK, March 17.—A special
farmers' water meeting was held in
Lutte's Hall yesterday afternoon to
discuss the best way of carrying the
proposed water suit to the Supreme
Court. The committee consisting of
W. R. Rutherford, R. O. Church, L. B.
Dean, C. E. Salesbury and E. A.
Knap, reported it was necessary to
raise \$6000. An assessment was made
at the rate of \$1 for every acre of
property owned and \$3000 was raised
during the afternoon.

The funeral of Mrs. Mary E. Rich,
who died of pleurisy, was held yes-
terday afternoon and interment was in
Grand View Cemetery. Mrs. Rich was
years of age and an old soldier's widow.
She came here a number of years ago from Vermont. She leaves
four sons and one daughter.

C. B. Fischer, a local real estate
agent, has sold the Cartwright
property on Second and Olive street,
consideration \$6000.

PERSONAL.

TANGLED.
HEIRS ATTACK
STEPFATHER.Say Smith Not Real Husband
of Their Mother.Another Complication in the
Keating Estate.Strange Allegations Made in
Threatened Suit.

Another phase of the involved Keating estate litigation is booked for appearance in the Superior Court today. The papers setting out the complaint, in behalf of the heirs of the dead nitrate king, Andrew J. W. Keating, are prepared and may be filed this morning, but there is a possibility of delay for a few days. Everything is ready for the beginning of an action that will present an interesting situation affecting the estate of Mrs. Isabel Keating Smith and her widow, Lillian E. Smith, who are now in the limelight on account of a pending divorce suit and an unsavory connection in relation to the adoption of the grandchild of the woman who professes to be his discarded wife, and who has entered suit for an interlocutory decree.

The burden of the complaint will be for the setting aside of certain deeds to real estate that Smith secured from his wife, Lillian, and the surviving husband of Mrs. Isabel Keating Smith, made when Smith disposed of his holdings at intervals since his amicable arrangement with the Keatings.

The allegation upon which the action of the court is sought is that Smith is not the lawful and legal surviving husband of Isabel Keating Smith, and that at the time of the marriage there was a connection between the two, in 1908, Smith had a wife living; therefore, an action against him for bigamy, instead of giving him a big interest in the baronial acres belonging to the Keating estate, would be more to the point.

STRANGE RELATIONS. It will be recalled that some weeks ago Minnie K. Smith brought an action against Isaiah H. Smith, asking for an interlocutory decree of divorce on account of desertion. It was set out in her petition that they were married in 1888, that they lived together for six years, during which time two children, a son and a daughter, were born.

The son died in childhood, the daughter, Lillian E. Smith, now Mrs. James N. Murphy, is the little woman who was the victim of the Keating estate Wednesday, and told the sorrowful story of how her husband, Horace Frank Murphy, had been taken away from her by her mother, who was the first wife of Smith, and whose action against him is now pending.

Although no showing has been made in court as to the status of Smith previous to his marriage with Mrs. Keating, it is alleged that his family had fully advised the time in regard to the union, and not only that, but a plan was worked by which Mrs. Keating, then the widow, and Smith were then engaged in company at the home of Smith, and whose action against him is now pending.

Although no showing has been made in court as to the status of Smith previous to his marriage with Mrs. Keating, it is alleged that his family had fully advised the time in regard to the union, and not only that, but a plan was worked by which Mrs. Keating, then the widow, and Smith were then engaged in company at the home of Smith, and whose action against him is now pending.

INTERESTING LETTERS.

It is further declared that letters will be read during the coming divorce trial, which will be up on an order to show cause in Judge Houser's department Monday, April 1, by Smith to his first wife, which he has given to the children, and complains that the "old woman" (meaning the former "Mrs. Keating") had not "come across" satisfactorily.

These missives were written when Smith and the widow of Keating were on their wedding trip.

Mrs. Smith, formerly Mrs. Keating, did not live long as the wife of the house painter, Isaiah H. Smith, for she died in 1908, two years after their marriage.

It was soon arranged that he should dispose of his interest in the Keating estate, and an amicable arrangement was made between the heirs and himself, by the provision of which he was to receive the litigation attendant upon its settlement, although he has been in constant attendance at all of the hearings.

About seven months ago, it is alleged that Smith married again, according to allegations in wives, according to the records.

It is the idea of the Keating heirs to contest the right of Smith to the real estate interests he secured from his wife on the ground that he had obtained it by force and fraud, and that all debts that have passed between purchasers and himself shall be set aside. Pending the hearing of the case, a temporary injunction will be asked for restraining him from disposing of any of his property.

KNIGHTS VISIT WHITTIER.

One Hundred and Fifty Anaheim Pythians Assist in Institution of Uniform Rank.

ANAHEIM, March 17.—Nearly 150 uniformed Knights of Pythias, accompanied by the lodge band and a number of subordinate members, went to Whittier last night to assist in the institution of the uniform rank in that city. The lodge members made the trip in two special cars.

Theodore Robinson sustained a slight attack of facial paralysis. He recently celebrated his eighty-third birthday and up to the present time has not been seriously ill in sixty years.

Mrs. E. Robinson of Suisun, Cal., has purchased the ten-acre tract formerly owned by Mr. Becker, east of town.

E. W. Payne has sold to F. E. Simon and J. H. Ransler of Pasadena, the forty-five-acre tract of unimproved property east of Olive for \$10,000. The property will be improved.

Mr. Gunderson has sold his fourteen-acre walnut and Valencia orange orchard on East street to J. C. Craft of North Dakota, for \$17,500. Mr. Gunderson purchased the property about seven years ago for \$7000 and predicts that the property in another seven years will be worth \$27,000.

FEATHERED FISHERMEN is the title of a article in the "Audubon" by W. L. Finley, the foremost student of birds on the Pacific Coast, for The Times Magazine. Finley's article is a good one and compensated by some remarkable photos of wild birds, taken by his associate, Herman

Mrs. Beulah V. Axtell.

who testified yesterday that she was compelled at the point of a revolver by her husband, now dead, to sign an agreement depriving her of her share in his estate.

GUN AT HER HEAD.

(Continued From First Page.)

If she would live apart from him and make no debts for him to pay. He was also to buy her a home worth \$4000 within two years. One hundred shares of the capital stock of the Long Beach and Alamitos Improvement Company, to be deposited with the Columbia Trust Company, was to be security for the payment of the money. In consideration of her signing the document, it was agreed that she should surrender her rights in twelve lots in Arcadia, one in the Le Moyne tract, on Pointe de Lobos in two in the Lakeside tract, as well as all interest in Axtell's holding of the stock of the Nevada Copper Company and the Long Beach and Alamitos Improvement Company. Afterward the wife was induced to sign a quit claim of the Arcadia property, and Axtell secured the Hotel Seville, on Flower street, near Seventh, which is now the principal item of the assets of the hotel.

Associated Press advised are to the effect that Southern Pacific officials have gone over the line to Guaymas, from Phoenix; and that surveys are complete from Tucson through the Alter gold placer fields.

Kansas City capitalists have taken an immense land interest around the head of Pointe de Lobos and are also interested in the railroad project.

If this line is completed it will result in the Southern Pacific interests not only owning a transcontinental line, but it will also mean the opening up and developing of an immense territory south of the national boundary line.
